

How to Start and Progress to the Next Week in the Training Modules

If you're wanting to know how to start and advance through your course material, then this article is for you!

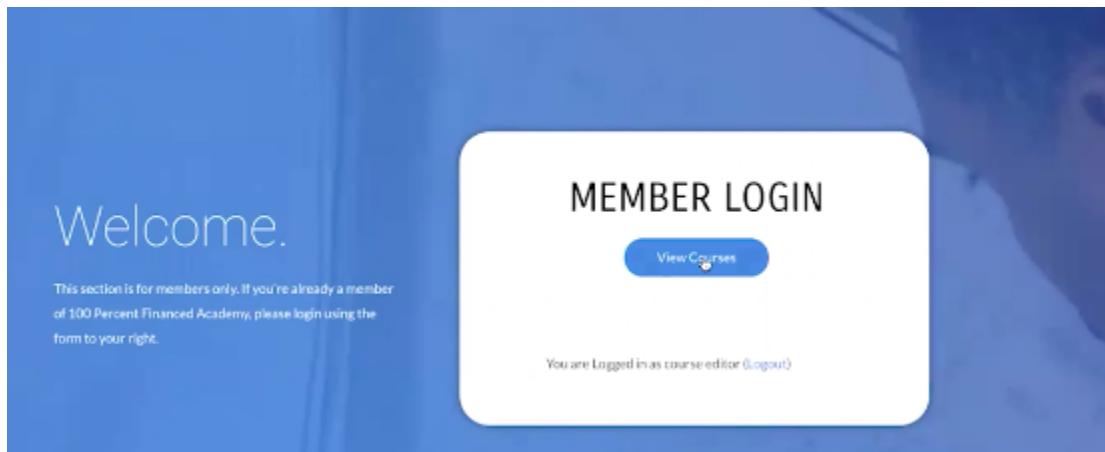

Before you begin, it's important for you to know that if you purchased the 100PF Academy Accelerator program, you will also have access to the supplemental course: Quit Your Day Job, but **not** the Multi-unit Income Training program (MIT 3.0).

If you purchased the MIT 3.0, then you will have access to all three programs: MIT 3.0, Accelerator, and the supplemental course: Quit Your Day Job.

Whether you purchased 100PF Academy Accelerator or MIT, we want you to start with Accelerator first.

Here is the process for you to follow:

1. Once you get access to the [Member Login page](#) and have successfully logged in, enter your username and password and click "View Courses."

2. Here you'll arrive at the Member Account page where you can access all the courses and resources you've enrolled in.

Below it, the title 'Multi-unit Income Training' is followed by a progress bar indicating '0% COMPLETE' with the note 'Last activity on March 28, 2021, 9:02 pm'.
